

Name: Mr. Maged Mohammed Ahmad Reza	Pat. ID: 793428
Procedure: Doppler Veins One Both Limb (upper Or Lower)	Pat. Age: 26 Year(s)
Ref. Phy: Osama Althakil	Pat. Sex: M
Study Date: 30/12/2024 05:10	Report Date: 30/12/2024 07:39

ANDALUSIA HOSPITAL

BOTH LOWER LIMBS VENOUS DUPLEX

B-mode Deep Venous evaluation:

- The Common femoral V, Superficial femoral V, profunda femoris V, popliteal V, peroneal V, anterior tibial V, Posterior tibial V are PATENT, COMPRESSIBLE AND NORMAL CALIBERS.
- No intraluminal filling defect could be seen.
- Normal Phasicity with breathing and augmentation with distal compression

Color Doppler US:

- Normal respiratory caliber variation.
- Normal response to distal augmentation or valsalva
- No intraluminal filling defect,
- Normal flow pattern.

B-mode Superficial Venous evaluation:

- The GSV, SSV, SFJ & SPJ are patent and normal calibers.

Impression:

- Essentially normal LL veins.
